## **MEEKNESS**

- praótēs ("strength in gentleness") avoids unnecessary harshness, yet without compromising or being too slow to use necessary force. (Strong's Dictionary).
- "It is that temper of spirit in which we accept His dealings with us as good, and therefore without disputing or resisting;" (Vine's Dictionary)
- "Meekness is therefore an active and deliberate acceptance of undesirable circumstances that are wisely seen by the individual as only part of a larger picture. Meekness does not identify the weak but more precisely the strong who have been placed in a position of weakness where they persevere without giving up. The use of the Greek word when applied to animals makes this clear, for it means "tame" when applied to wild animals. In other words, such animals have not lost their strength but have learned to control the destructive instincts that prevent them from living in harmony with others." (Baker's Evangelical Dictionary)
